FUNGUS UNDER THE FLOOR

Carolynne...There was fungus under our house...underneath our floor...and it had carpet and Rokus had to tear out the carpet...and remove some of the floor trusses and it was a mess. It was a whole mess!...and we had...ah... someone visit us and these things happened simultaneously...somebody visited us and they flushed a diaper down our toilet and it caused our spackle to be ... we had spackle hanging from the ceiling and I was looking at our floor and I was sweeping up the plywood because of course that's what it was...and we didn't have any finances really to fix everything and here was the thanksgiving meeting coming and Rokus was out of the house so I was just really in a grouchy mood and I thought...I can say what I really feel...nobody gonna be here to hear it...and I'm sweeping this floor and I'm saying: "God, I hate this house! ...ever since we moved here there's been one problem after another and here we're going to get all these people for our convention and my house is going to look terrible and it's going to be so embarrassing"... and you know I was just ranting and raving and nobody was around so I just was saying it.

A WOOD HOUSE IS FOR A FLESH BODY

In the midst of all of it while I was sweeping the floor, because you know anybody...any woman that knows when you have plywood you know the dust, we live in the country and it was just...it was a mess. I'm sweeping away... God spoke to me He said: "What did you say when you first walked into this house?"...I so did not expect him to speak to me when I was grouchy...and I stopped and I said: ...Because when we walked into the house we had traveled for four and a half years and we knew God was going to direct us to a certain property and he did miraculously to this property and when I walked in ...and then it was just a shell...cause it was just a little log cabin...you know we...I walked in and I started speaking in tongues and I said: "This is my house...this is our house...we're supposed to be here Rokus!"... and I knew it. I just began to worship God so I went back to that moment and I said:... "You know... I said it was my

house...and that I was thankful...and then I began to cry...and I said : “Yes God I will be thankful...even if all I see...I see all these deficiencies and people come in, I am going to be proud of this house that you gave me God...yes...and I just...

A FLESH BODY IS FOR THE HOUSE FOR THE ETERNAL SELF

You know I was flooded with thankfulness and I just ...you know... ..sweeping the floor and then God spoke to me: “What did you say before you came into your physical home?”...I stopped and said: “A body thou hast prepared for me ...and I have come to do thy will.”...yeah...I was thankful for this opportunity to be in the earth...I mean... I knew it...I knew that I saw my ...my life and I said: “Yes Lord.” and I was thankful. He says: “Well then why have you spent your whole life resisting your life?”...Whoah!...I looked over my life ...I looked over all my childhood experiences and I had a lot of wonderful things ...I looked at...eh...what I went through...eh...it was a very difficult divorce and losing custody of my children and I couldn't understand why...you know I'd been a good person and why this could happen to me and I couldn't understand ...you know ...because we had this image like I was saying last night of what it is ...you know I was...I was a PK...I was a preacher's kid...and things like this should not have happened to me ...and they did... and I looked at all of it and I realized ...I ...I...I've been resisting my life because ...no...they were like Rokus said...my opportunities to be here...my opportunity to experience humanity and walk out as an over-comer...and thereby be life for other people... yes...you know...when you...when you don't know pain you can't really help somebody that has pain...if you don't know what it is to go through great loneliness and disappointment ...how can you ever touch somebody that is lonely and disappointed? And I began at that time...I...you know I had had my experience ...I...I had had an experience when I was complaining ...and I...God gave me a vision where the room went white and I saw this huge rolodex and it stopped and I saw this writing concerning me. And one of the things it said to me...it was like a paragraph...: “She will have controversy in court.”... but even though I saw that there was still something in me that said: “I did something wrong...if I had done things differently legally ...maybe...you know...I could have got this or what you know”...

EMBRACING YOUR LIFE

but I had never began to truly embrace my life and who I was and the circumstances of my life... because therein you find victory...therein you find the spirit of being an over-coming...God...I will take this cup and I will drink this cup of who I am and I will fully be who you are in me in this experience. I will fully be. Whether I am...sometimes you want be more articulate ...we want to be taller...we want our circumstances to be different ...but if we'll just know that I have been made...just like these charts...You know I came in here to do some of my stretches this morning and I thought: “What a wonderful thing to totally embrace the message that comes through Connie!”... that if we know that we came out of a certain star sign at a certain time on earth for the particular purpose that the Father has for us ...he put us through a certain gene line...he gave us a certain appearance...everything...now I am not saying: “You know...heh ...I was down here exercising...I want to do the best with what I've got...but I sure don't want to go through my life wishing my life was different ...wishing I was different ...I want to be all that He is in me to creation ...and how wonderful that is ...how wonderful that is... then you begin to love people...you begin to know that the person...your spouse that you're with..., the children that you have... the circumstances of your life... are all around you so that you can love and be WHO YOU NEED TO BE! And you can lose all sense of...of...guilt sometimes...you know we can go through life...just so...you know...full of guilt and would have.... should have....could have....you know and ...and you know ...I've done that...You know when I've said something wrong I'm like ...Oh Gosh...I could have said it differently...I didn't mean to hurt that

person...You know...I've spent all day...and Rokus will look at me and say: "Carolynne it's only a small"...You know if you said it wrong yesterday well then maybe tomorrow you'll be more in touch with the people around you and you can love that person maybe you needed that experience so you could turn around and make something different of it...today. We can...we can live in a way...eh...that is so victorious not because our lives are perfect ...and people don't want us to be...perfect people...they really don't... they want to see people that care for them ...when you're in Wal-Mart...and you look somebody in the eye and you really think about giving them life and caring for them...that's what they want...that's truly being Christ in the earth that's truly...you know they don't want...it's good to have information...revelation...I've got a tremendous husband that I'm so fortunate to be married to...but...people really just want know that you can identify with them...and that's what Jesus did ...right? ...

"I KNEW HE KNEW MY PAIN"

You know...that's when he first came to me...you all know the story...I was down to ninety some pounds...I really didn't want to live...I'm...beam me up Scotty, if I can't have my kids I'm out of here...I didn't want to live...I just knew it...my kids were everything to me ...I'd had a very difficult marriage folks...I slept with my kids...I ..that was me...that was it...I didn't want any more...So when ...ah...they were taken during violent circumstances...they were taken and there I was...ninety some pounds...and ..I had heard about Jesus...I was a preacher's daughter...that's why I thought...hey...this can't happen to me...I've been a good person ...I haven't done anything...this...this cannot be happening...to me...I mean you know I...I...when I grew up... my siblings told me... ..I...I...I would never say a cuss word...I read the bible every day... You know...I mean...I was one of those goody good shoes that you can't be around...both fit me... but...anyway ...when I as there and I ...I'm laying on my bed...like I said I was ninety some pounds...I ..I...Mom could not get me to eat...I thought: I'm just going to ...I'm just gonna...fade away... What's there to live for? You know? And I was on my stomach...and the presence...I had heard of Jesus...that he died for my sins...he was wonderful...you know...we sang songs to Jesus...and...I believed in him...but as I was laying on my stomach...a presence came into the room ...it stood at the foot of the bed...and that presence...I knew instantaneously it was Jesus...I knew it...I stopped crying...and...It was so sweet ...and what was so incredible to me ...is...everybody was saying ; "Oh it's OK...it's OK...and I'm thinking:...yeah... it's okay for you, you've got the kids...I'm thinking it...I'm not saying it... but that's what I'm thinking...and...but...I knew he knew my pain... I knew he knew it. That was the most incredible experience. I... He knew me, He understood and I felt this incredible sweetness and strength just begin to come into my body... and I just stopped, I was crying, I just I stopped and I didn't want to move a muscle because I was afraid He was going to leave and then I heard these words and they weren't from the mouth but they came into me and I heard these words:

"CARRY YOUR CROSS WITH DIGNITY AS I DID." ...

And I thought about it...you know He didn't say what I wanted him to say ... I'm going to give you your kids back...everything is going to be good, you know...everything is going to be wonderful, you are not going to have to go through a two year court battle, you know the whole bit that I went through, no, He didn't say those things...He said "CARRY YOUR CROSS WITH DIGNITY AS I DID." Something hit me...I just sat up...after that the presence began to fade, I never saw Him, but I knew it was Him and I had experiences with like angels and I had had an out of body experience when I was seventeen, but this was different, man, this was totally

different. This is He, this is Christ, the one who gives you the power to walk your life out, that empowers you, and gives you hope like nothing else can. He began to leave and I sat up, and I tried tears and I said I can do this. I can do this! I am more than a mother and I will live and I went out and my mother who was such a gracious wonderful, fantastic woman. And I went out and I just said "Mom...I'm going live... fix me something to eat". She started crying, of course you know, there's nothing like a mother to love you and I started crying and she held me and she said "Carolynne, what happened to you? I said "Jesus came to me, mom and I am going to make it ... I am going to live." And I began to live and I began to know myself and know Him. You know, if I hadn't gone years later when my children were eighteen, nineteen they came back and you know ...it was awesome and we are very close and life has turned out tremendous, you know, but that experience you know ...I am so thankful for because I would have stayed in a certain box, you know...I would never have married this wonderful, fantastic man either, if my life hadn't turned out that way but that is what He is and that is what we are to others.

BEING CHRIST IN EARTH

We actually are that, when we identify with others, when we open our beings to them, we help them, we empower them to walk out their lives. We can't change their lives, Jesus could have changed my life but He knew that that cross that I was going to bear in my life would be an opening for me to love people, to touch people. Because, really before then, nothing had really ever happened to me, I had always had a happy life, you know, but before...but after that, I...I began to touch people, you know in a way that I never could ... and I found the empowerment to live above my circumstances or through my circumstances...like Karen was saying. This experience that you are going through is your avenue of release, your avenue of strength, your avenue of authority, all of that comes through the circumstances of our lives as we let...as we let Him live in us, and move and have His being in us, through us, as us.

And as Trish, you know, nobody's ever going to be Trish, you know not like you, you are the only one, because you're it. You're his...you're...you're His avenue for you, as you, to creation and that's a wonderful thing and guess what... it doesn't bring ego consciousness because then you want to hear other people and you want to hear God in them. What's happened to them? What are they going through? How is He coming through them? You know, and then... so it is ... wonderful. I am just...I felt so full and so thankful to be here with all of you and I was sitting there and I was feeling you all, and feeling your lives and what you have gone through and seeing this message on the wall. And I was thinking how great and wonderful for Johnny and Connie to open their home for so many years, to make a place for people to come, such a... such a beautiful, beautiful thing and there's great honor in the spirit for both of you!

I CAN LAUGH, I CAN CRY, I AM A PART OF YOU.
I CAN TOUCH, I CAN FEEL, I KNOW YOUR FRAILITY.
WELL, YOU ARE CRUCIFIED ON TIME AND SPACE IN YOUR HUMANITY.
I AM YOU AND YOU ARE ME, WE LIVE IN ETERNITY.

THE PHYSICAL BODY IS FOR THIS PLANE ... TO HOLD CONSCIOUSNESS

Thank you , Carolynne, indeed...how good...how good that is.

You know I like to record...like Carolynne...I've never heard her share it like that before. You know...

Oh good...we have another teenager at the back ...well...we've got a few at home...but ...you know...if I could... if I could bypass all of you and get to you this afternoon ...I...I'd do it in a minute ...because...you young people... you teenagers...you're the hope for tomorrow You're...you're the ones that can make change ...it's really hard for some of us to make...change...God...you know... that's why I carry three pennies with me all the time so...like I pay...I just don't want all that change...so...there you go. All Right! I've got something in my mind that I want to try to share with you. But before we get into it I ...I've got to sort of...create a setting for this. You know...we were referring to the body as many parts. Different functions that serve one another but all of them...whether it's your ears to connect auditory waves to connect ...the dog hears Carolynne coming up...the dog already knows... that somebody is coming...you know and...So sound is such a wonderful part of our perceptual world and feeling...I can touch...I can feel...feeling and eyesight even more...I mean what would you give for your eyesight... you know. Hearing...I ...I remember one time... I stuffed some toilet paper down in my ears because I was at a Pentecostal holiness church and it was just too much...I wanted to hear it but not quite that much you know...so I tried to deafen the sound down a little and it got stuck in there and built wax around it formed a great big wad in my ear and I didn't even know it ...things got really tough...I couldn't sing, I couldn't hear myself, I...life really became dismal with only one ear operating and..so I went out to a little walk-in clinic and they flushed it out and out came this big wad and I got so happy!...I mean I ...I got just ecstatically happy just got beside myself happy because I could hear again...you know ...what do you think about people who just have to give up a whole part of their perceptual world...they have to give up their eyesight or they have to learn to get along without maybe being able to perambulate...you know...to go from one place to another, have a leg you can shake...you know...and other people get it cut off for same reasons and you still have yours... that's cause for joy! Joy in body! The body is cause for joy...but the body is made for you to interact with this physical realm...it's physical ...it's ability with the neural synapses in your brain hold awareness...of course the whole body holds awareness but it's through the body that you interact...that you live...that you react that you create experiences . The body is the way that you exist in this three dimensional world.

THE BODY HOLDS THE PERCEPTION OF SELF

But the body really holds your perception of self. It holds consciousness. It holds thoughts and awrenesses of who you are and they change dramatically... throughout life...right? And you get glimpses of what you can be...you see images of people on TV that have done things that you would like to do so you...you create those images in your mind and then you pursue after them...and that's the way life is meant to be...you are meant to perceptualize... you're meant to image to create the image world first and then live in it and when your image world is in conflict with your reality ...when you've been given images and you've adopted them from your religious background particularly or from your social background...your mom and dad have mistreated you or your siblings or whatever the world that you were in...as... and you know you've been mistreated and there is conflict in your mind about who you want to be then you will have to work out that conflict. So that you can align your perceptual world the world that you see the world that you want you can align it and become harmonious to strive after...after that world. But no matter who you are, where you are, how intelligent, how dumb you think yourself to be, it really doesn't make much difference...it's all relative...like in Arkansas...it's all relative...and so well...it doesn't matter...the way to create your life is through perceptions...to open your mind...open your heart...now it is more than just ...like when Carolynne was ministering so beautifully...it isn't just the words that she says it isn't just only the ways she says them...there's a whole perception of life and light that comes ...floods all over you and you see it and you say; "Yes, I can be that...yes...yes...my life can be ..." the spirit comes and ministers in

a song or in words or...then you make a choice...and you say: "Yes, I can be that...I can change...I can become..." it's an unconscious thing...but there has to be something created in...in you...that you can percep...perceive so that you can become that... And it's good to know that. And it's good to know that it isn't just automatic...and you hold and govern the doors of your perception...You say: "I don't want to see that!" ...and you won't see it...they won't force it on you. And..."I don't want to look at that!..." "I don't want to remember the time when time when ...somebody took me as a child into the...into the cornfield...I don't...I don't want to remember that...It's too painful!" But then...there comes a time when it's too painful not to go there. When you stand at the thought...at the brink of a thought that you'll be forever trapped even in just this life...in...in a lower...in a... in a ...a frequency of ...of not knowing that's just too small for you ...you want to become ...You say: "OK ...I'll go! I'll go...I'll do it! I'll go!"...And then you open your heart mind and then you find it's not painful at all...because it feels like somebody else. ..It's really just an experience that you created... that you helped to create ...or that was created for you ...So...you have an imaginer...and that's what I ...that's what I want to...

YOUR IMAGINER IS POWERFUL

An imagination can be a wonderful thing...it can be a horrible thing. Can you imagine being trapped in pornography? It's not hard to imagine. Plenty of people are... Right?...God!...because that imagination is so powerful...and the need for sexual fulfillment is so deep in our whole make-up...and we were created like that, it's meant to be that way and when that's totally unfulfilled and you can't see any way of it being fulfilled cause you've put up some walls...cause maybe something happened to you...and then...then you want to fill that anyway and you become totally...and it happens to people. Why? Through their imaginers ...so...because the imaginer is so powerful and so wonderful it can be misused. It can be used to damn you or to...or to glorify you...how...how great ...just the extreme ...the thing goes both ways so...wonderfully and beautifully.

THERE'S REALLY ONLY ONE OF YOU

So you have an imaginer...so...I want to appeal to your imaginer...I want to say a couple of things that I don't really know...is it OK for me to say something I don't really know? I just think?...I think...that in the same way that you have a body in this physical realm that's physical...through which you can interact with this environment...so in the worlds of Light you have a body of Light!...That makes sense...I personally haven't seen that. Carolynne has...but I've never just seen it ...she has...she's seen a shaft of light right down the core of who she is...a core of light. A two inch tube of pulsating living light ...she said...Whoah! This is strange!...And she saw herself fold herself into that light...so there is an inter-dimensional way to go from one to the other. ...there's a way to go from your light body awareness to your physical body awareness...there's a connection ...there's a wormhole!... Whatever...there's a tunnel...there's a way to get from another perception of self that Johnny called your spiritual self and your physical self...they're really connected...you're really not ...you're really not two of you in the light world and in the physical world but we have to talk about them as being separate in order to get some handle on it. They're not separate...you're only one of you...there'll only ever be but one of you ...you're not into three parts...body soul ... you can't divide yourself into...there's only one...there's only you ...but to talk about you have to ...the engine and the body. And the engine has its own computer system and the body don't need one. The doors are just the doors...the computer will tell you if the door is open but it doesn't say anything about the door....doesn't tell you it's color...the door...nothing... but the... the engine needs that computer in the car so we separate the body and the engine because they have a very different function but really the car is not a car without an engine nor is it a car without a body. So you are not ...you're not without either one...you need both... you need a body ...whether it's a body of ...physical body...or it's a

body of light ...you need a body to hold your consciousness. That's the greatest purpose of the body... is to hold the awareness of self...so it can grow and become.

FORM YOUR OWN PERCEPTIONS

Right?...So this body of light...I'm sort of wondering about it and Carolynne had the experience of seeing a tube down the centre of her body and I ran into this book this guy had and it...he described exactly what Carolynne had seen so I thought: Well maybe this guy in on the QT maybe this guy is all right...maybe this guy is OK ...even if he doesn't believe like I do ...doesn't see...doesn't have the same spiritual world that I live in but he saw something that I've never seen and that Carolynne saw so maybe it's Ok for me to listen to this guy ...I was sort of afraid...I was ...I am...I don't...get trapped in some useless merry-go-round ...it's possible...right?...We've been there....Maybe we need to be worried about ...more about where we've been then where we are going but...we've been trapped on a merry-go-round for two thousand years ...Right? A certain perceptual world and we just couldn't get out of it ...and the...the renaissance came and industrial revolution ...and finally in this last century the Holy Spirit came again and just shattered everything ...just shattered our religious consciousness just totally busted it and we were left sort of ...some of us were the victims of their...sort of the casualties of this ...right John? But we survived! We survived not only did we survive but we're beginning to open a whole new world a whole new way of living a whole new way of thinking a whole new way of being together in a spiritual awareness...a whole new way of worshipping and it's OK however you do it because tomorrow you'll do it differently . Whatever we are doing today is Ok and tomorrow we'll do it in another way. Well in that world of light this guy says...I hate to say: "This guy says" ...but it's the best I can do at the moment if I ever get a vision or a better perception of it...thank you... I'll say: "Well...cancel that out...here's another one!" Or better yet...just form your own. Open your mind and say: "God I can ...I can hear anything you want me to say!... I have direct access ...I can go back ...Father to the place I came from ...I come back to my origins...I can hear you ...Father you can talk to me about anything you want to talk...I'm not restricting ...I don't need to have a religious role ...I don't have to say mumbo jumbo ...I don't have to say the right religious phrases I don't have to behave right...do right...nothing ...God...I'm yours... I am of the Light and I can know the things that pertain to the Light ...that's what's happening... Right? ...Right!...and there's no...no conditions...no requirements no stipulations ...there's no ...you have access to God and to the Light that you are without requirements , without restrictions. You're the one that says: "I'm not good enough." You're the one that says: "I didn't do it right." You're the one...and because you say those things you create a world where you can overcome ...it's not so much overcoming the things you did wrong it's overcoming the thought that doing wrong disqualifies you from God. And I think you will... humanity has struggled with that for a long time.

RELIGION IS LIKE THE EGG-SHELL

Religion...all the religions of the world have embraced that thought. If you accept our enlightenment ...if you'll listen to our guru ...if you'll do the mantras if you'll say...get the right crystals or whatever...hold a crucifix or look at a stained glass window whatever the conditions ...if you'll follow those conditions then you will be spiritually qualified to hear from God. Oowh! Yeah! Yeah! Well...it's...it was true, it's the egg-shell...it's the egg-shell ...Well... what was the egg-shell for? ...Well...it kept you where you needed to be... until it was... changed its function...now it becomes your prison...the thing that kept you safe became your prison! And that chick's got a little anger going on...it's got a ...it's got a... it's got a...something going on in it and it turns against the thing that protected it ...it begins to chip away at it ...and it needs that

emotion...it needs that determination ...it needs that empowerment against...whatever it's against ...you needed that to break through. But once you break through and look at the whole thing and say: "There's that shell! Whoah! Thank God for that shell! That was wonderful! Pheew! I made it! I'm out...Glory! What a great world I'm in! Thank you for that eggshell ...if it hadn't been for that eggshell ...Wow! God...I couldn't even exist...Thank you Father!... Glory!"...I hope we come to that...

LIGHT BODY IS A STAR TETRAHEDRON WITH TWO COUNTER ROTATING FIELDS OF LIGHT

So in that world of light...this guy says...you are like a Star Tetrahedron...Well you know...ah...there it is...one triangle pointing up...right?...and one triangle pointing down...and the one triangle comes from above and slides over top and the one triangle comes up and you have a six pointed star. Star of David!...Now switch that to three dimensions ...you have a ...a ...four sided ah...tetra...four...four sided...pyramid shaped object, pointing down. Heaven... You have a four sided ...tetrahedron...like a little pyramid...pointing up...we'll push the two into each other... till the point comes out the top and out the bottom and now you have an eight pointed star! ...called a ...Star Tetrahedron!...Now...and then you spin ...spin the one this way....and spin the other the other way...now what does that spinning do? Well it creates circuitry...it creates a flow... it creates points...there is ...that eight pointed star has sixty four points in it and those points...the circuitry can flow around those points. It has definition...it's like a body for electrical magnetic currents to flow...and what can it do?...It can hold information! ...Right?...Information!...And because it can hold information ...it can hold consciousness...it can hold an awareness... of who you are...in the worlds of light. So you're a...in the worlds of Light you're like a... an energy ball with counter rotating fields of light...that's what he says. A neat idea! Can I put my hundred percent vote on this is absolutely correct? No!... But guess what?...It's a way of thinking about yourself away from this physical plane. He says...are you just sort of a whisp?...Floating around out there?...like vapor?...like some...some of the movies portray it...you know...or are you like a shadow that flips and slips around?...he says...No!...he says...you are two counter rotating fields of Light...powerful energy that holds...holds this information about who you are in the worlds of Light! That's what I...my problem...if I have a problem...why admit to a problem...if I have a problem about reincarnation...it's this...it doesn't answer where you came from. It doesn't answer who you are ...so what if you existed in another life?...I'm OK...I'm incarnate ...so...maybe I can be re-incarnate!...I'm definitely incarnate!...I'm in this physical body ...but I'm more than this physical body..I know that. I just don't believe that now. I've shifted from believing something to knowing something ...can't persuade anybody else of it...but...that doesn't matter...I know I'm spirit...because what I can feel when I say it. When I say: "I am spirit...Oh I am life" ...I know...I can feel it ...it goes all through me...it's a joy...an empowerment...I can face situations knowing that I come at it from a greater point of view than just the experience of it. I'm more than just a mother struggling with a teen age son!...I am that...I'm acting out those roles but I'm really in this world of Light creating an experience for myself so I can know my Father, know my origin...know who I am and what I can become!...

THE IMAGINER: STEPPING OUT OF THE BODY

So you have a context in which to think about yourself...That's so wonderful! That's how you can step outside...how can you step outside ...there's no place to step to...if there's no imagination going on in your world...in your thinking...about who you might be beyond this physical body...then there's hardly a way to extract yourself from it and look at it . I can step outside of this Physical Body because I'm not this Physical Body. I can step into the awareness of

my Light Body and look at my Physical Body and wonder at it like Carolynne did. When spirit creates...can you imagine...how powerful the hold the Physical Body has on us...and physical consciousness...God has to just drop you out of tree...for twelve feet. God has to take you in a house that's full of fungus and ...and ...get you really upset and mad and angry so he can finally talk to you ...through that house...get you thinking about the real house the real house wasn't plywood and ...the real house that God wanted to talk to her about was this physical house that she had been struggling with and she didn't want...God didn't want to blame her...or make her feel bad about having struggled against her incarnate self. She wanted to own the awareness ...that can struggle...and he wants you to ask: ... "Well God...why did I...why do I struggle against this body?" He doesn't want you to feel bad about struggling against this body...he wants you to ask...he wants you to say: "Ok God why do I struggle against this body that's my opportunity?" ... and when you ask...the doors open.

YOU DON'T ASK BECAUSE YOU THINK YOU KNOW

If you just don't ask...the reason you don't ask is because you assume you know...think about that...the reason you don't ask is because you assume you know. And what you assume you know is probably not true...The reason you don't ask: "Why is my life like this?" ...is because you know...cause you screwed up. Everybody told you ...you screwed up. You know you screwed up. You didn't do it right ...so it never occurs to you to ask ...because you think you know the answer... so somebody's got to jar ...somebody's got to shake the pot! Somebody's got to say: No! No!...That is not your relationship with the world of Light...with God...your relationship isn't based on whether you've done it right or not. The question isn't whether you did it right...or whether you did it wrong ...that's not the question... the question is: "How does that affect my connection with God and in the Light?" ... and the fact is it don't! That's the truth...and we're ready for that truth now...it's been withheld from us through long ages that truth has been withheld. Why?...it's like the eggshell...it needed to be there . You know...All right! So here is ...here's what I want us ...here's...one of the reasons I love the scriptures is because they give you an anchoring point... they give you a...when a world of thought comes to you and you're struggling into it and when you begin to change your awareness...because you don't want to sit any longer you know...it's not satisfying so you want to change so you begin to reach out...you start reading around a little bit see what different people have said and experienced throughout the centuries. You go beyond the periphery of what your ...your experience and your Light World is and go a little further and...and you change ...when the world is sort of in a turmoil ...it's like chaos and then you need something to hang onto when the storm is blowing ...man ...the tornado's on ...sixty miles an hour ...eighty...a hundred and fifty mile an hour wind!...then you've got to have something to hang onto right?... So the scriptures ...the words of Jesus especially for me...and it's nice...somebody did this...they put it all in red...what he said...that is so nice...I don't know why they did that...but it really helps me because I want to flip through and find something he said...so...and the disciples came and said unto him: "Why do you speak to them in parables?" And he answered them and said: "Because it is given unto you to know the mystery"...He was just hoping they'd ask!...he'd been talking in parables to the Pharisees and...and he was sort watching those disciples: "All right boys...are you getting this?" They said: "Lord we don't know what you are talking about." Well...let me explain it to you...that isn't the point...the point is ...and I'm saying things to them ...allowing you to see that they can't get it...hoping that you will realize that you CAN get it. You CAN get it...right? So...he says: "It is given unto you to know the mysteries of the kingdom of heaven but to them it is not given."... Well...that doesn't fit with our Universalist ideas here...some of my Universalist ideas thinks that Jesus wants to tell everybody the truth. Well...he didn't here...maybe he's changed...I don't know. "For whatever...for whosoever hath to him shall be given and he shall have more abundance, but whosoever hath not from him shall be taken ...therefore I speak to them in

parables because...they seeing see not hearing hear not, neither do they understand. In them it's fulfilled" ...and he goes back to the prophet Isaiah. "Blessed are your eyes for they see and you ears for they hear for verily I say unto you that many prophets and righteous men have desired to see those things which you see and have not seen them and to hear the things you hear and not heard them.

FOUNDATION OF THE WORLD: THE ELEMENTARY PRINCIPLES OF CREATION

Therefore hear the parable of the sower."... Now...he said: "I will utter...open my mouth in parables and utter things hid from the foundation of the world." Now I always thought that the foundation of the world was back there somewhere ...where the world was created...the foundation has got to be somewhere back where it was created. Well...if you're in a house...the foundation isn't back there somewhere...the foundation is underneath... Right? So... "I will utter things that are hidden"...in the elementary principles of creation...I will utter things that are hidden in the Quantum world...Where they are not visible. The quantum world is not visible to the eye. Right! Particles are so small you cannot see them...like you can't go down there because when light hits something it bounces it away...so you can't see it ...so never will you be able to see the quantum world in the way that you see the physical plane. So...we know all about that ...science has talked to us about that so...I'm going to show you things in the quantum world that you haven't been able to see but are necessary for you to understand to know how things function and operate. I want you to know the Kingdom. Then he starts telling parables now...here's where I want to go...a little bit...He answered them and said: "He that soweth the good seed is the son of Man...the field is the world"...now...the field...the world isn't ...ah... the planetary globe...the field is the physical realm...the world of physicality ...it's this physical universe... Right? Jesus is really big...I mean he takes ...we'll get into his mind ...I mean he lived two thousand years ago ...he never saw a...the history channel...he...he...the field is the physical plane or the physical realm and in the physical realm...there are... "The good seed are the children of the Kingdom but the tares are the children of the wicked one." ...Now...that was a bad one...you know...because when we were trying to understand that from our religious consciousness...well...the good ones are the ones that come to church with us ...and the bad ones are down the road getting drunk but God wants to get the bad ones and save them and come to church. That was our limited thinking ...that's the way we lived. That was in the egg shell!... So don't be too hard on us...What else could we think? Well ...we were really part of the pharisaic world that couldn't understand...the religious mind can't understand because it's so biased!... and so Ego controlled and so self-centered... Right? That's where we were...that's where they were...it's OK...He says: "The field is the world...the good seed are the children of the kingdom and the tares are the children of the wicked one." And now this is a lot of duality going on here ...we're wanting to move into oneness! We don't want more duality and separation that's in: "This is bad and this is good!" Well...Jesus ...weren't you very enlightened here?... or what's going on?...No...he said: I'm uttering things from the foundation of the world! I'm talking about the elementary principles of the physical creation ...I'm showing you that the physical creation was created to create contrast between two kinds of seed. And God's not trying to get rid of the bad ones so he can have the good ones...and he's not trying to make the good ones win over the bad ones ...God needs the contrast between the good and the bad...for something else to happen ...something greater than good or bad...so...he's talking about fundamental principles of reality that lay beneath the feet of our experience and the reason he is doing that is so that we can begin to live in harmony...create our imager in harmony with those principles ...

TWO SEEDS: TO SERVE YOUR BECOMING

See?...So... I just take one minute to ...just to show you this ...that this is a fundamental principle of...laying at the beginning of things. In the second or third chapter of Genesis...God says to the Eve after they come to the experience of good and bad...after they come to the experience of eating from the tree of knowledge of good and evil... all at once there is such a sudden dramatic change in their experience of themselves and they don't understand what happened to this and they are crying out to God: "God ...what happened to us...what ...where are we going?...What's this about ...why are we doing this ...what...what's our journey...and he says to them...He says: "Ok I'll give you an explanation"...He said... "There's two seeds...and the seed of the woman and the serpent...you know...this thing that you felt that caused you to participate in this ...in this duality realm ...this serpent mentality?"...He says:... "It's like a seed...it's...it wants to propagate itself...it wants to seed itself...it has control...at a certain level but you're...you're... the seed that comes from you... will bruise ...It will bruise your heel...it will knock you down...it will bruise you... knock you down...Right? ..it will knock you down...it will...it's part of the journey..." He says... "But ...but you will crush the head of this serpent mentality because the whole...the whole journey that ...I've got you here in this planet...in this planet!"...and of course...now when we go back to Genesis we're not talking about all of physical reality...now...we're now talking about a scenario that's being unfolded here on this planet that we are a part of...you're a part of this journey...you're a part of this two seed thing ...and the seeds are both in you too. The serpent mentality is in you and the divine mentality, the woman of life...Eve is the beginner of all life ...are both in you and the struggle is in you as well as it's out in the world...it's reflected in the world for you but the struggle, the overcoming...is in you ...the becoming and you've come to this journey because there's a great intent and purpose...now...

GOING BACK TO THE BEGINNING WITH YOUR IMAGINER

For a brief moment...if I can... I want to take you back to a further place of origin...Now why go back to a place ...what do I care whether I came from the stars?...Tell me something I need to know now! Well...you need to know now that you came from the stars so that you know you have the empowerment to live in the now! The powerment for living in the now doesn't come the now...it doesn't come from being smart...it doesn't come from being intelligent...it doesn't come from having common sense...it doesn't come from having money or not money...your empowerment for living in the now comes your awareness that you're eternal and that came from God. So...you've got to own that!...You've got to own that awareness...Jesus can bring it to you see...Jesus can bring that awareness because he was ultimately powerfully...I mean particularly sent into this planet to bring an awareness of our divine origin. He taught his disciples to pray: "Our Father!" He didn't teach them to pray: "O Yahweh!"...He didn't...he used the term "Father" particularly because "Father" is the point and source of origin ...of essence of being...the essence of who and what you are comes from God...it doesn't come from some alien that...that...did something on this planet or didn't do...whatever happened to get your body here I don't really care too much...I'd like to know...really...I do...But...I really don't care too much...how you got this body...that you're living in...I really don't care too much how it was created...I do...I'd really like to know ..Just ...you know...but...God...I'd really like to know...how we got these bodies...why we look like we do...and why the different races on this planet...I'd really like to know the answers...but it really ...ultimately doesn't matter...cause the body is just a container for your eternal self...it's your eternal self that came from God!...It's that being of light that you are that lives in the worlds of light that wanted a body...that wanted to create an experience in this flesh...why? Not so that...just so that it could have a flesh experience and be disappointed and joy and have children and not have children and get busted and fall out of a tree or have a kid that won't listen to you...all...all that wonderful stuff that ...you

didn't...you didn't come just to have that ...you came here so that your eternal being could understand that it came from the Light that it could know it's Father!...

THE GREAT FUNDAMENTAL THOUGHT: THE BEGINNING OF ALL THINGS

Your eternal being wants to know something...wants to understand something and it's using your physical experience to ...to create stuff in your life so you can look at it ...but it's your eternal being that's asking the questions...your natural man...your Ego self...it doesn't care...it just wants to get drunk or get rich or something...Right?...Whatever the desires are...it just wants to live in those desires and do its thing and hope it don't die before it gets there and all that...that's...your ...that's the...but the eternal self is the one inside ...the eternal self is saying : "Oh I don't want my life to become a waste...I want to live I want to become!" ...that's your eternal being wants to have control at least to the effect that it can control the kinds of experiences it needs and not be trapped in...a in a bar someplace or in a whatever...right? So that it can be free to... because...the experiences that you create in this body are really really valuable to your eternal self. And if you're trapped ...and there's many ways to be trapped ...you can be trapped in really good things or you can be...but they are all entrapments if you're not open ...if you're not free...if you're not free to think if you're not free to experience then the eternal self can't create the experiences it needs...that's why its interested in having you free. All right ...now let me go back just ...having said all that...well...having said all that...let me go back to ...I think the most fundamental ...simplest...fundamental thought that we need to imagine... 'cause the only way to go there is through the imagination ... because this imagination that you have in this physical world is meant for you to live in this physical world...primarily. But it can also help you understand the eternal things ...that's why Jesus told parables. Because they help you create an image. I want to create an image in your mind of how you began ...how we began...how did I begin?... Where did I start?...What...and I do believe I have a beginning...the scriptures say this: They say: "In the beginning was the word and the word became flesh." In the beginning was the word...the beginning of what?...The beginning of consciousness as we know it. The beginning of consciousness as a physical being ...in you...began at your first thoughts that you can consciously remember. Now you have thoughts in your mind from what happened to you as a child that if you will allow them...if you will go there...if you will practice and work at it you could remember the crib that you were laying in. You could remember the first time you saw your mother...it's all in here...right? Perceptually...but you can't remember what's not there!...What you didn't experience you can't remember experiences you didn't have!... You don't need to remember them...but it seems silly to say that but still ...and in the same way as you can remember the experiences that brought you into the physical...you began to have a s a physical being ...the same way you can remember the experiences you had when you first became a Being of Light. How did you begin?...

GOD IS A HOLOGRAM OF EXISTENCE

Well...well... that's where I like the idea of a hologram. I've talked about that...you know a little bit about that...the difference between...a hologram ...a picture...an ordinary black and white picture if you cut it in half ...you know there's your ex on the one side and you on the other ...and God... you're just ready to divorce her ...so you rip the picture in half and she's on one side and you're on the other...thank God I'm done with that!...Right? You can do that with a negative...cut it...you can't do that with a hologram...if you cut a hologram...the negative that's used to create the hologram ...that negative...we call that the hologram...you cut it in half and shine the light though half you get exactly the same picture...as the other...it gets a little

dimmer...cut it in half again...and again..again...again...no matter how small you make it...shine the laser light through it ..you still get the same image...that's how God is!...You...When you existed in God you existed in the whole of him!...You didn't exist on the left or the right in the middle ...you were non-local...that's a good scientific term to use nowadays...non-locality. In God all things are one ...you were part of the great ONE you couldn't think about yourself as separate from God...Couldn't...didn't...wouldn't...whatever. So...what happened ...that you came...where did you come from?...God is ONE...how did you begin. Well...God...had a desire...and how do I know that?...Because everything in your life begins with a desire...You see this woman...God!..hits your heart...hits your blood...you know...Bam!...Desire...desire...and you start to figure what do I need to get her...what do I need to do...here..well ..what do I say...if I say what I really think she's gonna .gonna ...smash me...I better not say that. I've already had that happen to me...so I want to do this right!...So desire comes and desire creates ...a thought hits and desire comes...and then it begins to create.

“WHAT IF I COULD HAVE SOMEBODY THAT I COULD LOVE WITH MY WHOLE HEART?”

So God had a thought and the thought was: “What if I could have somebody that I could love and that would love me.” How beautiful that thought is: “What if I could have somebody to love!”...Have you known people that have carried that thought? Some of them have carried it their whole lifetime and never found it. Some have just blundered into it. For somebody that would love you with their whole heart! God...and that you could love with your whole heart! I mean that you could trust.Now it's partly an imagination because life gets pretty rough!...You get pretty disappointed...But then you don't stop imagining that!...Do You?...You don't say: “Well... that's never possible!”...I mean just go watch one of the wonderful Hollywood movies you'll know it can happen!...Watch the Titanic or whatever. Right?...Or ask Carolynne ...and I. It can..it is...there is true love...really there is Love!...Love exists even if I would never experience it I know that Love exists and that...that thought in God began to create. He says: “Well how can I do this?” How can ...how can I ever have someone to love ...I am the whole of things...there isn't anybody but me...well this is all...God!...How can we think about eternal things in linear minds that are spatially orientated...How do we think about this..We can't!...But we do!...We have to...You have to create some kind of thing that says : Ok God: “You wondered what it was like to be... before there was another!” You went to the dictionary...You went to Oxford dictionary and looked up “OTHER”. And there it was... “OTHER”...the word “OTHER” did not exist in God's vocabulary...there wasn't any “OTHER!” So he began to IMAGINE the “OTHER.” God began to imagine the “OTHER” ...He created a world...an illusionary world to show his desire. And in that illusionary world of separation ...which is not real...so this is ...this is what all the New Age world is full of today... is that the world of separation is an illusion and they are right...they are absolutely...but what they don't know is that the illusion is what God wanted...God wanted this illusion so you could think about yourself as existant apart from Him. So you could turn around and slap him in the face: “God I hate this house!” “Fweeew!...I have been waiting for you to say it, I knew you felt that way...why didn't you just say it!” He's not gonna lose...how can he lose you? How can...How can God loose you? So...just go ahead get mad at Him...whatever you got to do to get the truth out...to find out what you're really thinking!...So God Imagined in himself that you could exist ...that you could be...and there you were! That's how you began...you began as a thought in God and I sort of happen to believe and I don't know if it's true or not...but I like to believe and I like to think that for every Being of Light that exists there is a unique thought in God for that being.

YOU OWE ALL YOU ARE TO THE FATHER-SOURCE

And that you can ask what that thought is ...now that's gonna take a lot of courage for you to ask...like somebody said that yesterday: We're not scared of the bad stuff...we're really scared of the really good stuff!...We're really scared of the really good...the really good stuff...is God:... "Is there a thought in you that is so uniquely me and that you love without boundaries? ...and that I can love you in return without boundaries? Is that really true ...for God...am I really ...am I really that important to you that you were willing to suffer the pain of having something separated from you as me... creating a hole in your own heart that would be unfulfilled if I didn't come back? Can it be that real?" It is... that's how real it is...there is a hole in God's heart ..that if you don't come back to it it'll be forever...ever...ever...ever...ever...empty! ...longing for you. Longing for you all the time...longing for you longing eternally for untold worlds untold ages longing for you, waiting for you ...knowing that ultimately you have to come and ask...you have to come say God: "Who am I?" "Where did I come from?" "What's your purpose for my life?" Halleluyah! See...and that's what Jesus is wanting to take his disciples to. Actually I want to talk to you about the foundational principles. I want you to know what it was that started...I want you to know how the Father began because through the Ages of darkness in order for this program to succeed... some ...by the power of free will given had to turn to the darkness...had to turn against the Light...they had to turn against God himself in order to create the contrast... "I need darkness and light! I need darkness and Light ...I need the darkness so you will long for the Light...I need the darkness of your life so you'll long for the Light... I need the emptiness of your life so you'll long for the wholeness. I need the separation in your life so you can understand and imagine what wholeness would be like..."That's how the world is ...that's what the Kingdom is about ...the Kingdom's about those great profound wonderful principles in God's heart and all of history is subject...Obama is subject to that ...Oh Jesus thank you! I've wondered if he's subject to anything!... He's subject!...The political scene and the national scene are all ...yeah...we have free will...there is no doubt about it...every level of our existence we have a measure of free will...but we don't have the amount of free will to cancel out God's great eternal wonderful purpose. I don't think so! You are his creation!... You owe him everything that you are you owe him and he never...ever...Now I'll tell you this! You know... "You owe me"... You've heard that said to you...Who...who hasn't heard that?... "Kid, I raised you...you owe me!"...I feel that way about my kids sometimes...I learned not to say that!...Smart enough not to say that and ...and then I tell it to God...they don't owe me...they are a great gift...God they don't owe me because they owe You ...And I'm just feeling this for them for you God...I feel this because we all owe you God...and God never ever ever says to you: "You owe me...You owe me." He's not going to say it...He'll hold his breath for eternity on end until you say it: You say: "God I owe you!"... "Yes my son...I know that...but that doesn't govern our relationship ...I love you my Son...I love you in a way that you can't even imagine Son...you're me...you're part of me ...with the whole ...I require nothing of you...I require no restitution. .. I require no repentance... I require nothing only that you would seek yourself ...only that you would desire to know yourself ...only that you would choose a road for yourself..."...and of course that road takes you back home. If you choose to live ...you come home...if you choose to be you... if you say: "OK I am something...Hell...I don't know what it is...I don't like what I see and I don't like what I understand I don't like what I've been told but I know that I've got to be good because you're...God! ...I want to know who I am!...I want to know myself..."..."Know thyself." ...you know...how does it say...over the door..."To thine own self be true"... and then...eat this cookie and you'll feel right as rain!... The Oracle...natural wisdom...all that...it's full ...it's found...it's found everywhere ...But...but let this...let this ...this great... feel...and I believe...this imagination that we're doing is taking us back or it's really taking us under if you like ...to the foundational reality and it's allowing us to feel how God feels. See...whether the imagination is perfect doesn't matter but the feeling is right ...you know that ...you know that that's how God

feels...if...you know it when you...when somebody says it ...then you feel it ...you know...yes God...that's what you are like!...How can you know that?...

HOW COULD YOU NOT KNOW?

Because you are a part of Him! ...How could you not know?...when you let yourself know. How could you not know what God feels? So...know this...that at any time you can stop and even if you can't consciously go there...you can say: "God ...I'm a part of the Light...I'm a part of You...I don't understand anything that is happening but I connect with You and I draw my life...my energy my understanding directly from You!"... Just...do that!...That's how simple it is...it can't be difficult...cause then the smart ones and the strong ones... it can't be difficult...it can't be hard...it's got to be easy so that everybody can do it ...and it is easy but it's been hidden in the darkness...until now...but we're ready...it's open ...it's available...it's free...you can go ...you're free...you're free to fly...you're free to be...free to become...free to own your sense of self and treasure it in ways that we have never ever been able to treasure...the treasure of being You!...How beautiful it is...the treasure of being you!...And of course ...you're hammering it home for me ...the discovering of it in you is more precious to me than ...to see you discover that is ...I want to go with you...I want to discover it...if in is some way I have already discovered some parts of it ...but no!..I don't know it ...I don't what it is fully to be me!...No I don't...but I want to. Now...and I thank you ...all right!
