

## The Sun Series

### Part 10— Woman Standing on the Moon (Continued)

"And there appeared a great wonder in heaven: a WOMAN clothed with the sun, and the MOON UNDER HER FEET, and upon her head a crown of twelve stars."

Rev. 12:1

In the foregoing article we considered some scriptures regarding the moon and its facets of meaning, but there is another aspect that needs attention, that of the force of the moon upon the earth. It is a scientific fact that the tides of the earth are affected by the moon with the tides being highest at full moon. There is a secondary force exerted also at new moon. Thus the phases of the moon have tremendous effect upon the earth. To carry this thought further, the moon has a drastic effect upon humans, too, and especially upon women.

The moon has a cycle of 28 days which is also the feminine cycle, thus the moon is a strong force which the daughters of God must overcome. We have all heard much about overcoming the world, the flesh and the devil which is fine in its place, but overcoming does not stop there. There are heavenly forces to be contended and wrestled with, such as, the moon, and to be a full overcomer means conquering such. Men are somewhat affected by the moon, but it is women in particular who are called upon to take dominion over the power of the moon that runs the same cycle as their own cycle. The moon does not cease to exist for the daughters of God, but it is their privilege by the grace of God to get it under their feet.

It has been discovered that the full moon is the time when more crimes, suicides, etc. are committed. Even those who are mentally unbalanced are affected thereby, and even the term "lunatic" comes from "luna" meaning the moon. There are violent forces set in array especially at full and new moon, and these forces are being felt now as never before. And, the daughters of God are being pressured almost beyond endurance as these violent powers are being let loose more and more in the earth and atmosphere and aggravated by the phases of the moon. So strong are these forces that many think they are

springing up from within with a resultant horror that such things should be within them, but don't be fooled. What you are sensing is not something inherent but rather the full blow of spiritual conflict that is being manifest on the battleground of your own being.

Then, how does the gravitational pull of the moon affect you even as the tides? As the moon, especially when full, raises the tides to high levels causing the waters of the earth to dash against the shores, so the fluids of your body are affected by the moon in the same way. What bodily fluids are thus affected?

(1) The BLOOD is perhaps the most important fluid in the body, and the moon pulls upon it. With the blood are the organs so specifically connected therewith, such as, the heart, lungs, blood vessels, etc. It is very feasible that even the blood pressure is keenly affected by the moon. At any rate, the daughters of God are being sorely tried in all these facets until they are wondering what is wrong with their blood, heart, lungs, etc... The battle wages with little interruption while it seems the moon plays havoc with their beings. Take courage, for you are being called upon to conquer the moon.

(2) The LYMPH and lymph glands are indeed being sorely tried, too, for here is another fluid of the body affected by the moon. The lymphatic system is the body's defense against infection, but at times it appears a defenseless system in this conflict of the ages. In reality it is but the moon working against the lymph with resultant and apparent infection.

(3) Then, there is the URINE and the organs affiliated therewith--kidneys, bladder. Too often we are tempted to believe that something is sorely awry with the kidneys and bladder and every symptom would so indicate, but really the battle is not with flesh and blood but with heavenly influences, the moon in particular. Let us never mistake the spiritual battle manifest in the physical as one and the same with a physical affliction but rather recognize it for what it is.

(4) And, SWEAT is another fluid of the body upon which the moon exerts an influence. The main purpose of perspiration is to keep the temperature of the body constant for good health and life itself. Have you noticed the extremes of bodily temperature, or should I say, the sensations of extremes through which you are passing? And, with it comes profuse perspiration and at other times complete lack of perspiration. It might be wise to add that

our adversary would ruin our health and life by this means if by no other, but be reminded that the moon and its influence must be overcome and you will stand upon it in triumph. The greater the battles the greater the victories! Victories over moon influenced testings!

Of course, the big question is, HOW IS THIS ACCOMPLISHED??? We are all familiar with JERICHO and how Israel conquered it. But few realize that the root word in Hebrew from which we get Jericho is the same as from which we get MOON!!! Thus in the taking of Jericho is a figure of HOW the power of the moon is overcome.

Read Joshua 6 for a complete picture of the conquering of Jericho. There the people were commanded to march around the city each day for six days while the Ark was borne by the priests with seven trumpets preceding the Ark. Trumpets were used for several reasons, but the main reason was to announce a certain truth, event, or time. Otherwise there was to be no sound from the people, but they were to hold their peace. Then on the seventh day they were to go about the walls seven times, bringing the total times around to thirteen. Then at a given signal, a long blast on the ram's horn, the people shouted and the walls came down. How does this apply to our conquering the moon? It seems at the present moment nothing is happening and that we are needlessly going around about the forces of the moon. It even seems that everything affected by the moon is worse than it used to be, that we are more physically weakened and adversely affected than ever. Nevertheless, there is nothing to do but continue to believe and continue to go around about it even though it seems we are going in circles. It must have seemed so for Israel of old likewise as they compassed the walls of Jericho. Yet there is the sound of the priests' trumpets announcing the coming event and time. There are those who have put the trumpet to the mouth and who continue to encourage others that victory is certain in God's manner and time.

This is not the time for shouting and talking, for Israel was commanded to neither shout, nor to make any noise with the voice, nor to let any word proceed out of their mouth. (Vs. 10) It is such a silent time right now, but soon the silence will be broken and the power of the moon be broken, too. The word for SHOUT in the Hebrew means to MAR BY BREAKING, TO SPLIT THE EAR WITH SOUND. Ah, this is not an ordinary shout that is to be heard, but this is a triumph by the Spirit of God whereby the force of the moon is broken and at the same time the ear, the inner ear,

is split open to hear things never heard before, even spiritual mysteries long veiled but then unveiled. O you who have waited long and sometimes even with discouragement for the manifestation of the victory, the Lord has not forgotten, but He is proving the value of your faith which works by love in letting you go in circles for a period of time, but the ultimate victory is assured.

May I propound a thought regarding the time involved? Could those seven days of going around Jericho be likened unto the daughters of God compassing the moon for seven years (a day for a year in Bible ratio)? About 1970 the Lord began to speak to me about the moon and its influence, and from then on the battles with the same have been awful, almost unbearable. There have been times when I felt I could not even stand to look at the full moon and all it portends, but then I have found the new moon is almost as bad for bringing pressure to bear upon body, mind and spirit. Others have been cognizant of this force, too, and have battled it relentlessly but with no apparent victory. Let me encourage you that the battle will not go on forever but must come to a climax. Is it possible that we are facing the seventh and last year of battle with the moon in which the tempo shall be quickened to encompass it more often than heretofore? I do not say I am right on the timing, but it is something to ponder. Hold steady for the time of shouting will come, and the moon shall be conquered, and the daughters of God shall stand atop it having completely triumphed over it. This must take place before the manchild is born, for the woman of Rev. 12 is standing on top of the moon before HE is birthed. The key to the timing is when the battle really began in earnest against the moon's force, and that could have been about 1970 or shortly thereafter. At any rate, we are nearer the victory now than when we first began, and the triumph is sure!!!!

In concluding on this part about the moon I want to relate a personal experience from years ago. When I was 12 years of age and coming home from church one night, I was reclining in the back seat of our old Ford car. The moon was full as I lay watching it. Suddenly the moon was broken into pieces before my eyes, and I was startled. Yet I was afraid to say anything about what I had seen. It has only been since God has opened my understanding to the influence of the moon on the daughters of God that I realized what He showed me then was the power of the moon broken and destroyed. The promise is about to be reality!!! N.C.N. REDEMPTION WRITINGS, P.O. Box 277, Green River, Utah 84525
