

THE CHANGING OF OUR D.N.A.

I recently read something somewhere that I feel is right. They said that as we learn more it changes our D.N.A.

I have paraphrased it, but this is essentially what they were saying. Sometimes... actually quite often, I reflect back on who I was in terms of humanity a few years ago and I am very much encouraged and so very grateful to see the changes that have taken place in just a few short years. It's encouraging when you realize that all you need do to be in on the ascension into the new world of peace and freedom is to just believe and trust. That's what has brought us to where we are today.

We will never know how controlled and manipulated we've all been until we are at last given all the freedom that has been taken away by those who's agenda was to enslave the planet. In the very near future, all will be made public. I believed it's necessary as it will assist us in the ascension process. What I'm sharing here is one level of information. There are others that are more positive, however they are no more true then this one. Jesus became a master who knew more then one level of truth. I believe he shared other things that were omitted or never known in the first place, except by a few whom he took into his confidence.

There have always been those who knew secrets/mysteries that the masses have never known. This is how the "secret government"- "Illuminati" has controlled the planet since early on. Their knowledge of the mysteries have however not been mixed with love but greed. That has and is... their undoing. All will make it back into the pure light ultimately including these dark ones. In a higher vein of truth they are not our enemies, they are also a part of us. We need to always remember this. This understanding prevents us from generating negative energy concerning them

In doing that we fall into the same trap of negative energy, and that is how they have controlled the masses, by fear and anger. We are not superior to them. We simply have greater light which is laced with love. This is the only "edge" that Jesus had over the masses in his day. He had the ability to look beyond the faults of a man to see the needs. When he saw the need that was responsible for the fault, his heart filled with compassion. He felt a great obligation to uplift the down trodden, the sick, the poor, because he saw beyond the illusion that was responsible.

He saw them as sheep needing a shepherd. He knew that they had the same power and ability that he had, but he also knew that they could not use it so great was the darkness they dwelt in. He was a great light to that era. His foretelling of the time when we would do greater works then he did has come.
